

PMT Courses - GCSE Refresher Courses 2022

These two-day online courses are designed to give students who are going into Year 11 a head start in the new academic year. Tutors will review all Year 10 material, refreshing knowledge of content which may have been forgotten over the summer.

Our summer courses take place **online** using Google Classroom.

Course	Dates	Info and Bookings
Biology	22-23rd August	Click here
Chemistry	24-25th August	Click here
Maths	27-28th August	Click here
Physics	29-30th August	Click here
Combined Science	Dates above	Click here

August						Sat	Sun			
	22	23	24	25	26	27	28	29	30	31
Biology										
Chemistry										
Maths										
Physics										

How do our online courses work?

- We use Google Classroom for our online courses. Students are sent the link to join the Classroom the day before the course starts.
- Inside the Classroom students will find digital copies of all the handouts.
- The lessons take place on Google Meet. On the morning of the course, the Meet link will be shared in the Classroom's stream.
- Lessons are recorded and saved in the Classroom for students to revisit whenever they wish. Any resources used by teachers during the course are also saved in the Classroom.

Boards and levels

- These courses are for Higher Tier students. If you are taking Foundation our courses will not be suitable.
- Our courses are not exam-board specific and are suitable for all students, whatever their board. For Maths, practice questions will be taken from Edexcel past papers. You can get an idea of how Edexcel questions are worded by looking through some papers [here](#).
